The Club Condition.

About fifty members of the Jefferson club met Friday evening and listened to a talk by their president, H. H. Hark. The organization and the regular meetings of this club at this time would seem to have come again.

The spring elections is drawing near the time of year when the chronic politicians emerge from the winter

sluggish and come about for a ray of sunshine. The Jefferson club seems to be the child of the city hall democracy and if a dutiful child will doubtless endeavor to keep its parents in office. The promoters of this reform organization are just now looking for a suitable and worthy candidate for mayor, and the election of Mr. Shanahan to the presidency of the club may not be without its significance. From present indications it would appear that if the Jefferson club is influential in the city politics, Maurice Shanahan will be the democratic candidate for mayor at the coming election.
